

## Urgent Consult Service for Children and Youth

A doctor or nurse practitioner would like your child to see our **Pediatric Urgent Consult Service**.

Pediatric (say *pee-dee-ah-trick*) is a medical term for study of illnesses in children and youth.

### What is this service?

This service provides health care to children and youth with a new health condition. A doctor who specializes in children's health (pediatrician) will see your child at a Pediatric Clinic close to your home (checked off on this sheet).

### When is the appointment?

The Pediatric Clinic checked off (☒) on the back page calls you to let you know the date and time of the appointment. Watch for a call from Fraser Health.

### What if my child gets sicker before the appointment?

If your child gets sicker, take your child to the nearest Emergency Department. Tell the Emergency doctor and nurse you are waiting to see a specialist with Pediatric Urgent Consult Service.

### What if I have questions about my child's health before the appointment?

If you have questions about your child's health, you can speak to a registered nurse by calling:

- Fraser Health Virtual Care, call 1-800-314-0999 or live chat online at [fraserhealth.ca/virtualcare](https://fraserhealth.ca/virtualcare) 10:00 a.m. to 10:00 p.m., daily
- HealthLinkBC - call 8-1-1 (7-1-1 for deaf and hard of hearing) or go online at [HealthLinkBC.ca](https://HealthLinkBC.ca)

Please do not call the Pediatric Clinic directly for health advice.

### The day of your appointment

Parking is limited on the hospital site. Parking is restricted on streets around the hospital. Buses stop outside the hospital.

Please arrive early. Allow time to find parking and find the Unit in the hospital.

Plan to be at the hospital for at least 1 hour (could be longer depending on whether your child needs blood work and/or x-rays)

**See back page for Pediatric Clinic locations**
