## About the Aboriginal Health Services Identifier

Our identifier represents a culturally-inclusive and caring organization.

The Aboriginal hummingbird symbolizes health.

The Métis Nation's Infinity Flag, and the Inuit Inukshuk represent the diversity of our Aboriginal population.

The medicine wheel symbolizes balance, representing the four elements of life, including mental, emotional, physical and spiritual health.

The drum symbolizes the heart beat of the Aboriginal nation.

*Healthy Self,  
Healthy Families,  
Healthy Communities  
and Healthy Nation*

## Mission

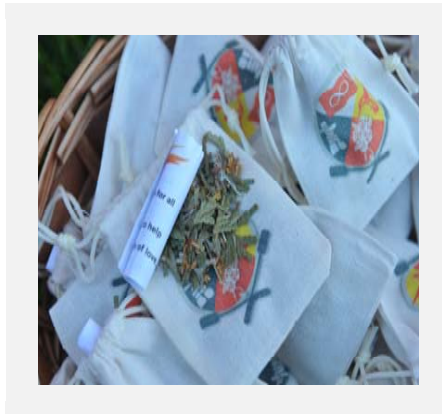

Inuit, Métis and First Nations (regardless of status) partner with Fraser Health and other service agents to meet primary health care and wellness needs and together build on cultural strengths enhancing communities of care.

## Values

- Guided by traditional healing and spirituality.
- An inclusive partner when planning, implementing and delivering services.
- Build better relationships that support the capacity of the Aboriginal service providers to deliver service.

## Strategic Priorities

- Enhance access and capacity for improved health and wellness outcomes
- Uphold Fraser Health's commitment to Cultural Safety
- Strengthen partnerships within Fraser Health
- Build relationships with external partners

## Aboriginal Health Team

- **Executive Director,**  
Provides leadership for the planning, coordination, integration, operation, and evaluation of Aboriginal Health programs, policies and services throughout Fraser Health, and to promote, enhance and facilitate the embedding of cultural safety and humility within the role of FH
- **Aboriginal Health Manager**  
Provides leadership in the delivery of AH services with a focus on coordination and integration along the continuum of care both within Fraser Health and with partner organizations.
- **Aboriginal Health Initiatives Lead**  
Provides support around the planning and development of initiatives designed to improve the health and wellness of Aboriginal people in Fraser Health
- **Aboriginal Health Lead**  
Engages and facilitates discussion within Fraser Health and external community partnerships to improve access and utilization of services.
- **Aboriginal Cultural Safety Coordinator**  
Provides ongoing development and implementation of the organization's Aboriginal Cultural Safety Framework and training programs in a way that is relevant to the values and strategic directions of the organization and with the goal of enhancing the organization's capacity to deliver health services in a culturally safe manner.
- **Aboriginal Health Project Leader**  
Leads the planning, implementation and evaluation of sustainable clinical operations initiatives.
- **Aboriginal Health Liaisons, Social Work or RN**  
Facilitates connections between Aboriginal clients and health service providers to enhance access to Fraser Health services in a culturally appropriate manner.
- **Nurse Practitioners, Primary Health**  
Provide the highest quality primary health care by ensuring all of their practices are culturally safe. The NP enhances access to health care services for Aboriginal clients in various outreach clinics.
