

Are your child’s vaccines up to date for Kindergarten?

Getting your child vaccinated on schedule is the best way to protect them from many dangerous diseases.

These 2 vaccines are recommended for all children starting at age 4. These vaccines are provided for free in British Columbia.

- **Tdap-IPV** protects against tetanus, diphtheria, pertussis (whooping cough), and polio.
- **MMRV** protects against measles, mumps, rubella, and varicella (chickenpox).

Make sure your child’s immunization records are up to date

Check your child’s immunization records* one of these ways:

- scanning this QR code to Health Gateway
- going online to HealthGateway.gov.bc.ca
- using the Health Gateway app

*Records for children under 12 years old are on their parent’s account.

If your child’s record shows their vaccines are not up to date but they did get vaccines from a health care provider outside of Public Health:

- Contact the health care provider who immunized your child and ask for a copy of the immunization record.
- Report these immunizations to Public Health online by either scanning this QR code or going to FraserHealth.ca/immunizationform

If your child has not yet had all their vaccines, please make an appointment with a public health unit, family doctor, nurse practitioner, or pharmacy. All routine vaccines are free in British Columbia.

Note: Not all family doctors, nurse practitioners, or pharmacies offer vaccines. Make sure to call ahead and check.

To make an immunization appointment at a public health unit:

- Call 604-702-4906 if you live in Mission, Abbotsford, Chilliwack, Agassiz, or Hope
- Call 604-476-7087 if you live in any of the other communities of Fraser Health

For more information, please call your local public health unit or visit our website: FraserHealth.ca/immunize.
