Yes, you can travel when you are on Hemodialysis!

Travelling means more planning.

- ✓ Start planning 6 - 12 months before your trip.
- ✓ Find out the name of the dialysis center you will need to go to (we can help!).
- OR –
- ✓ Look up Dialysis Centres (go to: www.globaldialysis.com).
- ✓ You might need to pay for your dialysis treatments. Please check with the dialysis center you are traveling to.
- ✓ You can apply to get some of the money back.
- ✓ You might need extra health insurance, especially if you leave Canada.
- ✓ Ask for the Travel Package in the unit.
