Cardiac Rehabilitation and Prevention Program

Abbotsford Regional Hospital
and Cancer Centre

 **fraserhealth** Better health.
Best in health care.

Self-management Support and Education Program

This 5 week program is for people who either:

- have had a heart attack, heart surgery (both bypass and valve surgery), and/or angioplasty, or
- are at high risk for developing heart disease

Education Topics

- Risk factors for heart disease
- Heart-healthy nutrition
- Heart medications
- Emotional health
- Exercise after a heart event

When

First visit only

Mondays 9:00AM to 11:00AM

Second and all other visits

Mondays 1:00PM to 2:30PM

Where

Abbotsford Regional Hospital
1st floor, Learning Centre (enter through the Main Entrance)

Who

Education and support is provided by a heart specialist (cardiologist), heart nurse, exercise specialist, nurse practitioner, pharmacist, dietitian, and social worker.

The Exercise Program

This program helps you begin or restart an exercise program after you have had a heart attack, heart surgery, and/or angioplasty. It is also for those who are at risk for a heart event.

We offer 3 different programs.

- Home-Based
- Community-Based
- Hospital-Based

We decide which program is best for you at your first visit.

Home-Based Cardiac Rehabilitation

We offer home-based programs for people who are not able to come to our exercise classes. We help you make a plan.
