**PEACE ARCH HOSPITAL**

**INSTRUCTIONS FOLLOWING CYSTOSCOPY:**

1. Drink plenty of fluids(8-10glasses per day) for the first 24 hours.
2. Blood tinged urine can be expected following a cystoscopy. However, if persistent for 2 - 3 days, notify your Doctor.
3. If burning or frequency of urination persists after 24 hours, notify your Doctor. If you develop a fever phone your Doctor or come to the Emergency Department.
4. If unable to urinate, notify your Doctor or come to the Emergency Department.
5. If heavy bleeding persists come to the Emergency Department. You may experience a small amount of bleeding when you pass your urine.
6. Take medicine if prescribed.
7. Dr. Skepasts (604) 538-0722  
Dr. Kwan (604) 536-1801
