Graduated Care Clinic

Peace Arch Hospital

We have referred you to the Graduated Care Clinic at Peace Arch Hospital for:

What is a Graduated Care Clinic?

The Graduated Care Clinic is for people who have had a recent hospital visit and need follow up care with a specialist. The clinic is the next step in your medical care.

During your appointment, one of our internal medicine doctors will complete an in-depth review of your overall health. You might see a different doctor each time if you need more than one visit. We might send you for blood work or other tests. You might also see a nurse who will give you medication or intravenous (IV) treatments that the specialist has ordered.

Appointment Instructions

Please come to your appointment at your scheduled time. Check-in at Registration before coming up to the clinic on the 6th floor.

If you are more than 10 minutes early, you might be asked to wait or come back closer to your scheduled time. If you will be more than 15 minutes late, please call the clinic so we do not cancel or reschedule your visit.

Essential Care Partners and Visitors

Essential care partners and visitors are welcome, but space is limited on the unit. Please notify us when booking if you need to bring someone with you.

What if I miss my appointment or need to change my appointment?

Call us as soon as possible so we can change your appointment and offer the time to another patient. Leave your name, phone number and the type of appointment you need to reschedule or cancel.

What if I need urgent care?

Call 8-1-1 to talk to a nurse or go to your nearest Urgent Primary Care Clinic or Emergency Department.
