

Please note:

We do not have these services on-site:

- x-ray, ultrasound, medical imaging, or CT scanning
- laboratory services

We cannot offer any intravenous therapy.

We do not have narcotics (opioids) onsite.

We will not give prescriptions for narcotics or tranquilizers (benzodiazepines).

For people who walk-in, we are not able to complete medical forms, such as for Persons with Disability (PWD) and private insurance. We need to know a person for at least 3 months before we can complete these types of forms.

Urgent and Primary Care Centres

**Timely, non-emergency
health care**

For more information online
fraserhealth.ca/urgentcare

What is the difference?

Urgent care is for people who:

- ✓ might normally go to a family doctor (or nurse practitioner) or walk-in clinic in their community with a health concern but can't get in to see one, *and*
- ✓ need medical care within 12 to 24 hours and it is not an emergency

A member of our team will work with you to address your care needs. We assess all patients when they arrive. We decide who to see first based on the urgency of care they require.

Examples of when to use urgent care:

- cough and/or cold
- cuts, wounds, or skin conditions
- infections such as chest, ear, and bladder
- mild back pain
- nausea, diarrhea, constipation
- new pain or burning while peeing

Emergency department

is for people who:

- ✓ are experiencing a health crisis
- ✓ have a serious illness or injury
- ✓ need medical care right away

Some examples of when to go to an emergency department:

- chest pain
- trouble breathing or short of breath
- any kind of bleeding that does not stop
- suspected stroke
- overdose or poisoning
- mental health crisis
- broken bones / dislocated joints

Primary care is for people who:

- ✓ are looking for a family doctor or nurse practitioner
- ✓ have complex care needs

We provide a team-based approach tailored to your specific health concerns. We might also refer you to other resources in the community.

Primary care is available by appointment.

Primary care teams include:

- doctors and nurse practitioners
- registered nurses
- clinical counsellors
- social workers
- pharmacists

Not sure where to go?

Call Fraser Health Virtual Care

1-800-314-0999
