

Your healthcare team

Your family doctor or nurse practitioner and this team of healthcare professionals can help you cope with dizziness and balance problems:

- To help with your eyesight or hearing:
 - audiologists
 - developmental optometrists
- To help with your mental health:
 - clinical counselors
 - cognitive behavioural therapists
 - psychiatrists
 - psychologists
- To help with your movement:
 - kinesiologists
 - occupational therapists
 - physiotherapists

Other doctors who focus on different parts of your body, such as your brain, nerves, eyes, ear, nose, or throat, can also help:

- otolaryngologist
- neurologist
- neuro-otologist
- neuro-ophthalmologist
