

Diabetes Team

The Pediatric Diabetes Clinic Team at Surrey Memorial Hospital believes in a family centered approach. This means that we care for both the patient and the family that supports them. We consider family as an important part of the health care team.

There are many online resources that can support you and your child.

What We Offer

The care team provides many services and supports for your family such as:

- Review your current diabetes management and diabetes.
- Education on different insulins and insulin delivery methods including pens, insulin pumps and continuous glucose monitoring (CGM).

You will meet several members of our team:

- **Clinic clerk:** to book appointments.
- **Diabetes Nurse Educator:** to help you understand your child's condition and treatment.
- **Diabetes Dietitian:** to discuss lifestyle and nutrition for your child's growth and development.
- **Social Worker or Counsellor:** to help you cope with the stresses of your child's condition and find practical financial and mental-health resources.
- **Pediatric Endocrinologist:** a doctor who specializes in childhood diabetes.

What to Bring

- BG meter(s) (school and home)
- Logbook
- Insulin pump report printed
Please upload before you come
- Questions or topics important to you

What to Expect

Clinic Visits (Thursday)

- First visit will be 1 hour
- Follow up clinic visits are 30 to 45 minutes

This medical visit includes any issues of importance to you including your diabetes management.

Clinic Annual Review

Lab work will be done to test for celiac and thyroid disease. Based on age and duration of diabetes we will test kidney function, dilated eye exam, lipid profile and foot/nerve exam.

Follow up Visits (Tuesday & Wednesday)

The visit is approximately 60 minutes
This visit can be with one of our team member to provide further support for your individual needs.
