

**fraserhealth**

Better health. Best in health care.

# Wound Care During Hemodialysis

**Abbotsford ♦ Mission**

**A service for clients of Home Health**

*Working together to support your care*

**Client Name:** \_\_\_\_\_

# What you can expect

Your hemodialysis nurse does your wound care while you are having your hemodialysis.

This saves you from having added appointments for wound care by your Community Health Nurse.

Your Community Health Nurse continues to be involved in your care.

# Schedule for wound care

Starting on (date) \_\_\_\_\_

Wound care every:

Monday Tuesday Wednesday Thursday  
Friday Saturday Sunday

# Bring these supplies with you
